- Penetration Testing
- Phishing Services
- Best Practices

**FIRESECURE**

## Firewall Audit, Report & Remediation

Unique consultancy service offering called "FireSecure" to ensure that Next-Gen Firewall / UTM devices are Audited, Reported and Secured by our highly skilled network security experts. FireSecure offers comprehensive auditing, detailed reporting, and consultancy-led remediation services.

**SECURE**

## Managed Cybersecurity Service

Cloud24x7 fully manages security operations for you. Our Security Operations Center (SOC) team uses most advanced Cyber security Platform to monitor for security events in your customer's IT environment 24x7x365 and provides our partners with incident notification, remediation guidance, and reporting.

**RapidMDR**

## Manage, Detect and Respond

RapidMDR combines human intelligence, industry's best security processes, and technology to detect advanced targeted threats. Cloud24x7's Global Security Operation Center delivers 24x7 monitoring and notification, incident response and remediation service. Highly skilled Security Analyst investigates events generated by security solutions to identify the extent and impact of the attack with the help of Root Cause Analysis.

**VAPTPRO**

## Vulnerability Assessment & Penetration Testing

This product provides manual human intelligence driven VAPT service for network and web applications. This blended service uses a combination of state of the art tools and skilled security analyst to perform security audits and penetration testing. It includes consultancy led remediations.

**PhishNet**

## Phishing As a Service

PhishNet offers fully managed phishing simulator to conduct simulated phishing attacks to test organization's susceptibility to real Phishing attacks and increase employees security awareness. Real world and custom template campaigns.

# Additional Services

## NETSECURE

We at Cloud24x7 have designed a unique consultancy-led Network Security Auditing and Remediation service called "NetSecure" to ensure that key network elements such as Next-Gen Firewall / UTM, Switches, Routers, Wireless Controllers/Access Points, Web and Email Gateways are Audited, Reported and Secured by our highly skilled network security experts.

## Security Assessment

Cloud24x7 Security Assessment provides a simple, straightforward option to experience the benefits in your own environment. Unlike other trials and proof of concept approaches, this Cloud24x7-managed evaluation only requires maximum of 6 hours to provide the complimentary evaluation summary. You get results based on your actual network traffic and summarized threats identified in the environment.

## Data Vault

Cloud24x7 brings innovative data protection solution with its product "DataVault", whether you want to keep things to yourself or share with others, we deliver the most secure product to meet your need. In a world of Open Networks and Bring Your Own Device, we focus on the crown jewels. Keep your valuable data locked in the Cloud24x7's DataVault, share it securely with others, securely back up your data. Our data security products are the most impactful encryption and privacy tools - developed to protect the actual data bytes instead of just the perimeter. And they are quick and easy to use.

## SOC as a Service

Don't trust a shared SOC service? Cloud24x7 has now started a dedicated and managed SOC as a Service. Just tell us the number of people and expertise level you need, and we take the responsibility of uninterrupted SOC services for you, 24x7.

## Are you looking at Remediation Services only?

Cloud24x7 is a channel driven Cyber Security services provider, with its regional value-added tie-ups with Solution partners plus the incumbent Technology partner, we can help in remediating and closing gaps of pre-assessed systems and networks. The great combination of the on-Cloud expertise with on-Premise incumbent Tech team helps in strengthening the Security posture of the organization.

“ Cyber-attacks to be the biggest threat to mankind, being even more severe than nuclear weapons. ”
